HERE ON CHANGE OF VENUE

Birney D. Spradling of This City, State Field Examiner Testifies to Finding Shortage

The case of the state against Cecil B. Collins, former clerk of the Shelby circuit court, charged with embezzlement, got started here today, having been sent here on a change of venue.

Judge John Craig of Decatur circuit court is acting as special judge having overruled Collin's motion filed Saturday to quash the charge. Collins is charged in a grand jury indictment returned in Shelby county several months ago.

A jury was obtained by eleven o'clock this morning, and the case started immediately. It will probably require two or three days to try the case.

Gordon Thurston, successor to Collins in the office of county clerk, was the first witness examined by the state. He identified several of the records brought here from Shelby county, and he also identified the signatures of Collins, which were affixed to his bond and other important papers.

Oscar Howard, present recorder of Shelby county, was the next witness and he also identified several of the court records that were in his possession as recorder of that county. He also identified the signature of Collins.

William J. Lowe, one of the county commissioners of Shelby county, was the next witness examined, and following him Howard was recalled to the stand to identify another record introduced by the state.

Frank Fegle, former auditor of Shelby county, who was in office during the time that Collins resigned, testified about receiving the written resignation, and it was later read to the jury.

Birney D. Spradling of Rushville, a field examiner for the state board of accounts, told about going through the books in the office, and said that he and Ed J. Donnell, another examiner, found a deficit of \$3,000 in cash.

He explained that the deficit pertained to estates, guardianships, civil cases and regular office work. Mr. Spradling said that in 1917 he and another examiner were in Shelbyville and examined these same books for Collins for the year 1916. He said that they then found a shortage of \$3,461.54. Mr. Spradling said that they talked with Collins, and he promised at that time to

SITUATION IN THE 6TH NOT CLEAR YET

Bossert and Anti-Bossert Forces in Battle For Chairmanship Apparently in Draw

ON EVE OF THE ELECTION

Each Side Claiming Four County Chairmen Following Election —Watson's Part Explained

The situation with respect to the election of the republican sixth district chairman at Liberty tomorrow morning is no clearer than it was before the election of republican county chairman last Saturday afternoon. Indications are that the forces who will make an effort to unseat Walter F. Bossert of Liberty, the district chairman, did not gain a majority of the members of the district committee, but that the elections resulted in a draw.

All politicians and newspapers of the district agree that four of the eight members of the district committee are Bossert and the other four for the election of Walter Bridges of Greenfield, who was entered in the race by the friends of Senator James E. Watson and Warren T. McCray; the republican primary nominee for governor.

Last Friday the Bossert forces were claiming his re-election by a majority of one because they expected chairman favorable to their candidate would be elected in five of the eight counties. They miscalculated in Wayne county, however, because Will Woodward of Dublin, who was the county chairman and Bossert adherent, retired from the race and Paul Comstock, who will vote to unseat Bossert, was elected chairman.

The other chairmen elected Saturday, who will vote for Bridges as against Bossert are Rufus Hinshaw of Henry county, Fon Riggs of this county and A. C. Vandura of Hancock county. The four chairmen elected, which are claimed by the Bossert followers, are Glen Bell of Fayette county, Oliver Lofuze of Union county, Otto A. Lee of Shelby county and L. M. Bridgeman of Franklin county.

Senator James E. Watson has been accused of instigating the fight against Bossert because the district chairman was unfriendly to him politically, but local republicans declare that the movement to unseat Bossert was started several weeks ago by friends of both Senator Watson and Warren T. McCray.

Senator Watson's part in the contest was revealed at the meeting of Wayne county precinct committee Saturday, when a letter the senator had written to Will Reeler of Richmond was produced. In it Senator Watson said that he knew that Bossert was against him and for the sake of the republican party to defeat him. Senator Watson's friends point out that he did not get into the fight in any way until his advice was sought.

Senator Watson was questioned about the letter which Reeler made public and gave out a statement in Indianapolis, in which he said:

The letter was written some while

NEW POLICY FOR MEXICO IN ORDER

State Department Confronted With Problem Following Fall of Carranza Government

THE CABINET MAY BE CALLED

First Step is to Protect American Interests—Between 6,000 and 7,000 Americans There

(By United Press)

Washington, May 10.—The state department today was confronted with the problem of framing a new Mexican policy following the overthrow of the Carranza government and seizure of Mexico City by the revolutionists.

Secretary Colby expects first to take steps to protect American interests in Mexico.

It has been predicted that probably President Wilson may call a cabinet meeting to consider what course United States shall take. The next development may be a clash between the forces of General Obregon and Gonzales, both rebel leaders and both aspirants for the presidency of Mexico.

The state department today announced that between six and seven thousand Americans were in Mexico.

While official dispatches reported the important oil country of Tampico had fallen to the rebels, officials here of the American oil company declared there had been no disturbances reported from Tampico. On the Texas border new alignments of United States army troops were being made.

60 KNIGHTS TEMPLAR FROM HERE IN LINE

Annual Ascension Day Exercises Are Held in Newcastle Sunday State Conclave is Next

RUSHVILLE EXPECTS 100

Rushville commandery No. 49, Knights Templar, had sixty members in line at the annual Ascension Day exercises in Newcastle yesterday, when six other commanderies in this state joined in the ceremony. Approximately five hundred uniformed Knights attended the services. Rushville had a larger representation than any other commandery.

Preparations are complete for the participation of Rushville's commandery in the annual state conclave which will open in Indianapolis tomorrow. Judge Will M. Sparks, who will take the part of the prelate in packed degree team which will give the work at the conclave, together with Hugh E. Maury, local commander, will go to Indianapolis tomorrow morning to make final arrangements for Rushville's Knights. The biggest attendance from here will be on Wednesday, the afternoon of which day the parade will take place. Rushville hopes to have 100 members in line and will be led by the Indianapolis News' newsboys band.

Newcastle, Muncie, Anderson, Connersville, Knightstown, Greenfield and Rushville took part in the Ascension Day services Sunday, the attendance from here numbering more than a hundred because many Knights were accompanied by their wives and families. The address was delivered at the M. E. church by the Rev. W. W. Want, the pastor, who is a Knight Templar.

CARRANZA SAID TO BE PRISONER

Another Report Received at El Paso Declares Mexican President Escaped to The Mountains

LARGE CITIES ARE CAPTURED

Dispatches Tell of Fall of Nuevo Laredo, Tampico and Mazatlan Before Rebel Forces

(By United Press)

Washington, May 10.—The United States battleship Oklahoma today was ordered by Secretary of the Navy Daniels to proceed from New York to Key West for the possible duty off the coast of Mexico.

Houston, Texas, May 10.—The United States steamship Sacramento has arrived off Tampico, a radio to an oil publication here today declared.

The message declared Tampico had been captured by the revolutionists without fighting. The situation was reported quiet.

Madero, Texas, May 10.—Eighty Obregon troops captured Nuevo Laredo yesterday, federal forces having abandoned their leaders after a thirty minute fight.

Several men were killed on both sides, the report states.

Americans watched the battle from this side of the Rio Grande.

El Paso, Texas, May 10.—Unconfirmed reports reaching here today said that President Carranza escaped into the mountains when his special train was captured.

The reports stated that he was now a refugee with armies scouring the mountains for him.

Mazatlan fell to the revolutionists today, reports said.

Mexico City, May 10.—President Carranza has been captured, according to a confirmed report here today.

The president was overtaken 85 miles from Mexico City after he fled from the capital.

His personal safety was guaranteed.

General Obregon heading his troops was to enter the capital today. The Carranza government abandoned Mexico City, for Vera Cruz at 10 a. m. Friday.

The capture of the president's party was reported to have been made by the rapid speed of the revolutionists.

The revolutionists claimed a victory in an engagement with the Carranza fleeing forces.

GENE WILLIAMS IS UNDER ARREST AGAIN

Muncie Man Once Sentenced to Imprisonment, Accused of Impersonating an Officer

HELD IN JAIL WITHOUT BOND

(By United Press)

Muncie, Ind., May 10.—Gene Williams, a prominent Muncie attorney, was arrested here today by federal officers and held in jail without bond. He will be taken to Indianapolis for arraignment before the United States commissioner. Williams, according to Howard Ellis, a revenue officer, is held on a United States warrant charging impersonation of a federal officer.

Williams was convicted of soliciting bribes and was sentenced to imprisonment. The decision was reversed by the supreme court. Dr. Roland Burch, former mayor of Muncie, and now serving a term in the federal prison at Atlanta, Ga., was also a defendant in the Williams case, his jury having disagreed.

Williams was arrested recently on a grand jury indictment charging grand larceny. Williams, according to reports, issued search warrants which resulted in his conviction. He is said to be the brains behind the "Bluebeard" sentence.

VEAL BROTHERS ARRIVE

Spring Festival Under Legion's Auspices to Open Tonight

The Veal Brothers Shows, which will give a spring festival here this week under the auspices of Rush Post No. 150 of the American Legion arrived yesterday over the Big Four and was being set up on the old ball grounds between the mill race and the river south of the city. The carnival will be ready for opening tonight and will remain in Rushville all week.

The organization appeared to be a circus on a small scale. It is composed of ten shows, a number of amusement devices, including a ferris wheel and merry-go-round, and the usual concessions. The equipment all looked clean and in good shape.

50 NEW MEMBERS GOAL OF LOCAL POST

American Legion Membership Campaign is Set For the Week of May 17 to 22

THIS ONE TO BE DIFFERENT

Feature That Public Will be Quick to Realize is That No Money Will be Asked

The American Legion will hold a campaign for new members the week of May 17-22 that will be "different."

The great American public, which has been the "drive" in so many intensive efforts of the last several years, has cultivated fine taste in campaigns. It has come to be able to spot a good drive from one that is poorly handled. It can distinguish points of variety in a campaign.

It has become a connoisseur in appeal.

The public, then, will be quick to recognize the essential difference of this American Legion effort.

Rush Post No. 150 of this city has been requested to add fifty new members during the week and is making preparations to come up to the expectations of those in charge of the campaign who fixed the goal of the local post.

In the first place, it is not a "drive" but a "push." Back in the dim days of the early war publicity experts borrowed the word "drive" from the slang of the day. Everyone who went out after something fell into the easy habit of calling his campaign a "drive." Then when it came time for the men who really knew what a war "drive" was to go out after new members for their Legion, they found that the word "drive" was as punchless as a blank cartridge. They had to dig themselves up a new word. So they called their campaign a "push"; which is a great deal like a "drive" except that it goes farther in implying relentless effort and relentless force.

A feature that the great general public should be quick to realize is that they, members of the public, will not be called on to contribute anything except good will. Positively no money contributions will be expected or received from them.

They will be expected to exhibit their friendship, but not their checkbooks.

Only some three million men are eligible to take active benefit of the Legion campaign. The organization now has enrolled more than a million and a half former service men and women, leaving some three million who can belong but do not.

The "push," then, is aimed directly at this minority. All of the combined efforts of the million and a half of their fellows will be devoted to bringing the absent into the fold.

Which means that every legionnaire will have to take on and convince two comrades.

Only about one man in twenty is eligible to join The Legion. It is perfectly safe to say that hundreds of thousands of total Americans would give a good deal if they were eligible, by reason of active army, navy or marine corps service, to come into The Legion. But they cannot, and it is only the three million of the game.

The only conditions the city authorities lay down are that all the cans, barrels and other debris be put in boxes, barrels or some sort of container and set in the alleys where they can be easily reached by the employees. The city does not agree to haul away trash or

LOCAL COMMITTEE MEETS TOMORROW

Elks in Charge of Salvation Army Home Service Campaign Will be Called Together

OFFICIALLY OPENS TODAY

Every Person Who Endorses Work Will be Called on to Enroll as a Subscriber

A committee from the Elks lodge, which was appointed Saturday to take charge of the Salvation Army Home Service campaign which opened throughout the United States today, has been called to meet at the Elks club tomorrow night to make arrangements for an active canvass of the county to raise approximately \$7,500 for the local corps.

The budget for the year is only \$2,500 but some local improvements are requested and have been included in the county allotment.

Complete success for the Home Service Appeal of the Salvation Army in Indiana was predicted on the opening day of the canvass by George E. Allen, assistant director of the movement. Mr. Allen has charge of the work being done in this state and directs the organization that is working in practically every county from his headquarters in Indianapolis.

The canvass which is to be conducted to raise \$452,000 for the home service activities and other phases of social relief work handled by the Salvation Army, was opened by most of the counties in the Hoosier state this morning.

As explained by Mr. Allen the enrollment plan is being followed out this year. Every person who endorses the work of the organization is called upon to enroll as a subscriber to the fund. No campaign as such is being made. The enrollment is entirely voluntary, the workers merely calling on the persons willing to give and leaving enrollment blanks with the request that they be filled out and turned over to the solicitors when they call to collect the blanks at the close of the period set aside for the appeal. In most of the counties in this state the canvass was started today and will continue until May 20.

"This plan will make the funds collected for Salvation Army work a free will offering in every sense," said Mr. Allen. "The good work done by the Salvation Army overseas, and what it has accomplished in its social relief and other uplift work has convinced the public that this appeal is meritorious and should be loyally supported."

50 NEW MEMBERS GOAL OF LOCAL POST

Continued from Page One
who are privileged to take advantage of the "push".

But The Legion has no intention of passing up the general public, simply because it is not asking anything from the public. The Legion keenly desires to interest every American in its "push" because it believes it is to every American's interest to be interested, which is not as ambiguous as it sounds.

Concerning the campaign, the following statement is made by state headquarters:

While only one American in twenty may be privileged to come into The Legion, every American must support in his heart, The Legion's platform, "For God and Country." Leaders in every field of American life have gladly and spontaneously endorsed The Legion's aspirations. It is widely recognized, although less than fifteen months old, as the greatest force for the established order in these United States.

That the general public feels that this is true is shown by the way prominent citizens have come forward to lend their aid. General Pershing has endorsed the campaign and urged eligible army men to join. The Legion, Lieut. Gen. Robert Lee Bullard, commanding the Department of the East, has included the same recognition in general orders.

Various welfare and civic organizations have endorsed the "push" and have volunteered to lend speakers and equipment to help make it a success. So the general public shows that it refuses to stay out. If a citizen cannot come in himself he intends to do his part to see that the eligible men do come in.

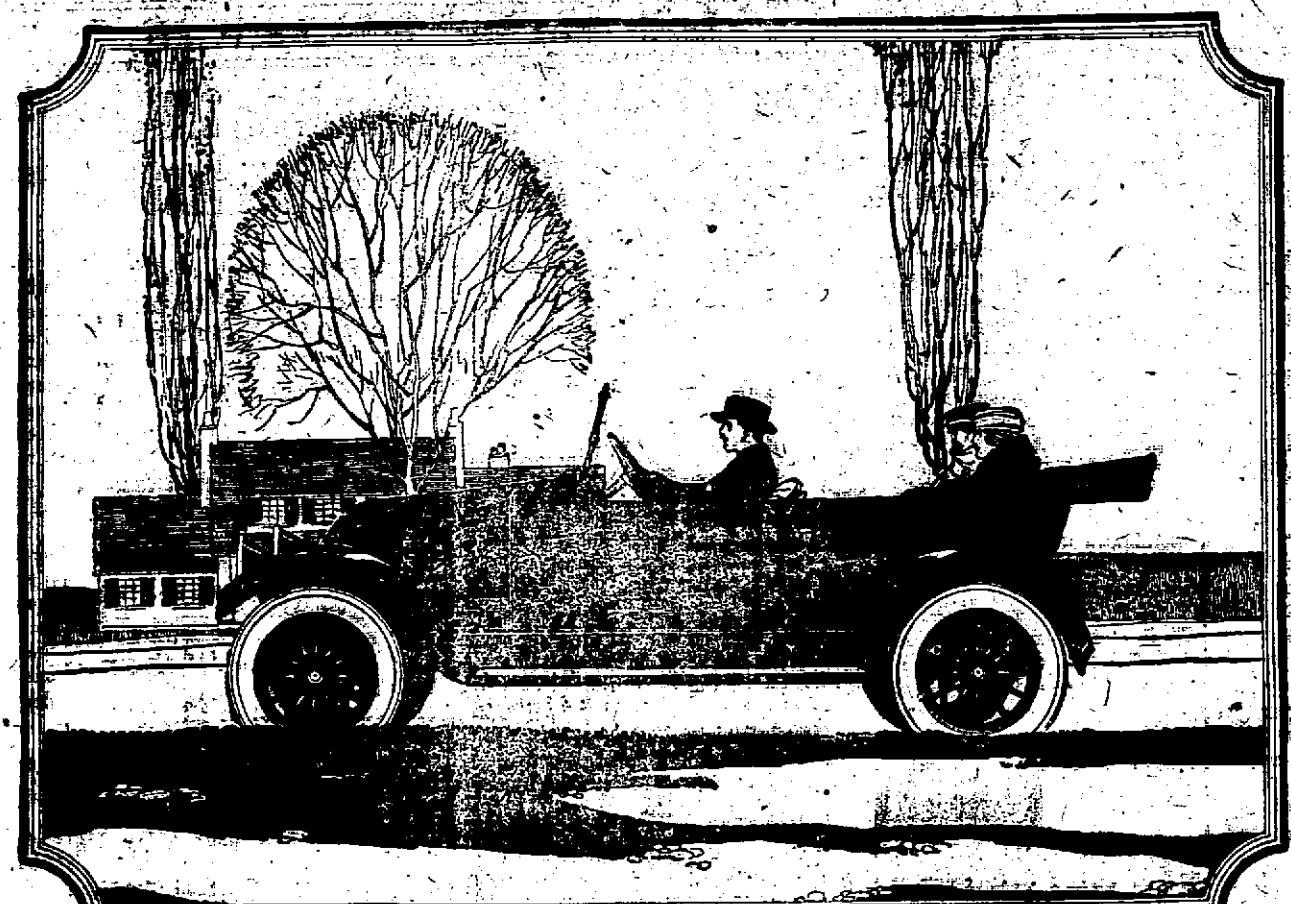

The Legion intends making special efforts to capture those men—and there are hundreds of thousands of them—who have every facility for joining a post, but who are the victims of inertia. These men—and women—know they are eligible to become legionnaires; they approve The Legion principles; they have always intended coming in, but they have simply put off doing so for the same reason of inertia that keeps men from taking out enough insurance or making their wills.

They belong in, and they know it. The Legion plans to get them by bucking them into a figurative corner, flashing an application blank in their faces and painlessly extracting their names and dollars.

Efforts also will be made to get army, navy and marine corps men who are eligible. Posts located near camps are expected to actively go out after these fellows. Another special sortie will be made against collegians, especially members of faculties.

The nation-wide "push" is expected to reach men in the most inaccessible places. Any fifteen ex-serving men can form their own post by getting together and applying to national headquarters for application blanks. It is believed that no locality is so thinly settled that it cannot score up fifteen former fighters, who can be brought together for social and Legion purposes.

Independently, the campaign will move into the far corners of the earth. Already The Legion has posts in African, Indian, Australian, and American countries, and expects to join in the "push" and extend the Legion's borders.

THE measure of satisfactory motoring today is what a car does. And motorists are realizing that it is quality and principles—not luck—which enable Franklin owners to get the above results.

The Franklin Car is the easiest riding, safest driving, least fatiguing car today. Requiring least care, it gives least trouble and creates least expense. It is the most advanced automobile in design and construction. That's why these road records in different parts of the country have been possible—and with only one driver at the wheel constantly on each trip.

Real Estate Man Is Enthusiastic

South Bend Business Man Says Tanlac Built Him Up After the 'Flu.'

Frank J. Anderson, a prominent real estate man and a member of the South Bend Real Estate Board, with offices at 663 Farmers Trust Building, South Bend, Ind., gives the public the benefit of his experience with Tanlac, the medicine that proved so effectual in building up his system following an attack of influenza a year ago.

"In the spring of 1919," said Mr. Anderson, "when the 'flu' epidemic was at its worst I was an easy victim, for I was already in a run-down condition. It took hard work to pull me through and when I did get out of bed I was too weak to do anything. My appetite was gone and my stomach troubled me worse than ever. For six or seven years my stomach had been in such a condition that if I ventured to eat such things as fried potatoes, soup, or beans, or any of the more substantial and nourishing foods I would bloat up with sour gas, get short of breath and just feel miserable. I had neglected the importance of keeping my system built up, and when the 'flu' came along it came near ending me."

"After being up for some time and getting no strength I decided it was high time for me to do something to bring back my strength and keep from having a back-set. One of my friends advised me to get Tanlac, saying he believed it was the only medicine that would actually do the work in such cases, as he had tried it himself. So I took his advice, got me some Tanlac, and in almost no time I was able to walk all about the house. I soon began to eat heartily, and as everything agreed with me I commenced to get my strength and natural feeling back. My stomach was in better shape than it had been in years and I can now eat things that used to hurt me and I never feel a sign of indigestion afterwards. I kept on improving and in a short time I was working about the house again. In two or three weeks after I began taking Tanlac I was absolutely free of any bad feeling and have been ever since. I took Tanlac until now. I am taking it now as a preventive against the 'flu.' I can now sit down to the table and eat a square meal with as much pleasure as I ever could in my life and I'm always feeling too good to complain of a thing, certainly feel thankful to the Tanlac Company for making such a splendid medicine."

Tanlac is sold in Rushville by F. J. Johnson Co., in Mifroy by Davis Copper, in Manilla by Geo. J. Shaw, in Arlington by Mrs. L. T. Davis, and in Carthage by Otto C. McCarty. —(Adv.)

SOMETIMES we are inclined to let a job go half done—or leave it when it is almost finished. It's poor business. Finish any job you start—and finish it right. Take the matter of harrowing:

A field that has been gone over with a disk harrow and smoothed with a peg-tooth harrow usually presents a pretty good seed bed under favorable conditions.

But all too often the seed bed isn't as good as it ought to be in spite of diligent disking and harrowing. Very frequently there are hard clods that are dug up by the disking which lie scattered about the field like stars in a clear, moonless sky. Each one of these lumps is a crop killer—it is taking up good air and moisture without offering any return thereto to you.

Finish the job right by crushing these hard lumps with a Dunham Culti-Packer. Not only is this implement very valuable in completing the preparation of a good seed bed by pulverizing the hard lumps and clogs dug up by harrowing, but it also prevents winter killing to a great extent. When the culti-packer is used early in the spring, it packs the soil that has been humped up by the frost, leaving wheat roots exposed to the air, thereby "replanting" this grain by packing the soil around the roots.

Come in and have a look at one of these culti-packers. We sell them.

Very frequently there are hard clods that are dug up by the disking which lie scattered about the field like stars in a clear, moonless sky. Each one of these lumps is a crop killer—it is taking up good air and moisture without offering any return thereto to you.

Finish the job right by crushing these hard lumps with a Dunham Culti-Packer. Not only is this implement very valuable in completing the preparation of a good seed bed by pulverizing the hard lumps and clogs dug up by harrowing, but it also prevents winter killing to a great extent. When the culti-packer is used early in the spring, it packs the soil that has been humped up by the frost, leaving wheat roots exposed to the air, thereby "replanting" this grain by packing the soil around the roots.

Come in and have a look at one of these culti-packers. We sell them.

Don't Like Their Yoke

The people of Ireland want independence. They have been wanting independence for many years, but they have been unable to throw off the British yoke.

Now they have a good sized rebellion on hand; and are endeavoring to make of themselves a free nation.

They have what they call the Irish Republic, with a president who spends his time in America soliciting financial aid for their cause.

While he is doing this England is spreading a cordon of steel around the disaffected districts and rales with the bayonet.

There was a time when we wore the British yoke, and were ruled by a British king supported by British guns, and it chafed.

But thanks to General Washington and a few others we no longer wear it.

Now we are a great country, because we are not wearing the yoke of any other country.

The ox is contented with its yoke. It plods along. It never does anything but plod and pull heavy burdens for its master.

But people are not oxen. To them the yoke is galling. It stifles their pride and creates a spirit of rebellion, and where rebellion exists prosperity is not of the best.

The trouble with Ireland is, that she sends too many of her best sons over here for her own good. But we, can not blame the sons for preferring American independence to British yokedom.

England also sends many of her

New Process Makes Castor Oil
Absolutely Tasteless

Doctors have always prescribed castor oil when a real laxative is needed, and all mothers know how much trouble it is to get children to take it. There need be no more trouble, for doctors are now recommending Kellogg's Tasteless Castor Oil, from which absolutely all nauseating taste has been removed.

Children take it readily. They need not even know it is castor oil.

This splendid new form of the good old family remedy is the result of a remarkable process perfected by the chemists of Spencer Kellogg & Sons, Inc. In strength and purity Kellogg's Tasteless Castor Oil is exactly the same as the old-fashioned disagreeable kind. Nothing has been removed but the taste. Do not accept substitutes, if you want a really tasteless castor oil. At all druggists. Two sizes, 35c and 65c.—(Advt.)

Japan's recent financial experience is a warning to the United States. Inflation and wild speculation in Japan have brought on a panic. Many banks have failed, and the Government has been compelled to interfere and stop speculation which inflates credit and the currency. Wise heads and steady hands must be in control of the policy of the United States during the next four or five years.

Consider the little bird that chirps on your window sill. There are many little birds just like it, and they are happy and voice that happiness in song. Why can we not be as intelligent in our way as the bird is in its way? For intelligence brings happiness and happiness breeds contentment, and contentment is the joy of life. We humans have much to learn even from the birds of the air.

Is it not about time for the United States Grain Corporation to make a complete financial report? The people would like to know how much the Corporation owes the Government after feeding Europe and helping to bring down the cost of living in this country.

One of the Naval Districts of the East had headquarters in a centrally located building, formerly known as the S. S. Sampson Manufacturing Company, in the business center of the city. Yeomenaids a-plenty festooned the doorways and gods posed for the multitudes, but none saw the sea except on Sunday excursions. A banquet was recently held and a Commandeer in charge shore duty solely of the personnel section was introduced. The toastmaster began with a reminiscence of Farragut and the "S. S. Sampson," and then introduced the guest as "Commander Wilson of the S. S. Sampson." There was a duel at dawn.

best sons over to us, and they like it. They make excellent citizens, and so do the Irish. We welcome them all, for they help to make us a bigger, a better and a greater country.

But if all of the Irish in America were back on the Emerald Isle, England might be up against a stiff proposition in crushing out the Irish rebellion—much stiffer than the job she has on her hands today.

The Movement to Hotels

Prediction is made that within the next ten years majority of the American people will forsake their comfortable homes and take up their residence in hotels. But we don't believe it. The American home is an institution sacred to every citizen of normal intelligence. It affords privacy and opportunity to live in quiet and contentment. It is the ideal environment for the rearing of children, for the perpetuation of the race. It is as far superior to the crowded hotel as sunshine is to the blizzard. "Home, Sweet Home," will endure as long as the republic stands, for without its ennobling influence we would be but little removed from the animals that herd together.

The Food Supply of the Future

AUTHORITIES agree that the food supply of the future depends upon the increased use of mechanical power on the farm. The tractor, motor truck, stationary gas engine, and the automobile, all dependent upon cheap, efficient motor fuel, have multiplied the efficiency of human labor, thereby increasing the acreage a man can handle.

In 1919 farmers owned 8,900,405 of the 7,523,864 automotive vehicles registered in the United States. These figures give a fair idea of the use being made of motor vehicles in producing and distributing food products.

There is no more prolific food producing area in the world than the territory served by the Standard Oil Company (Indiana).

To serve the farmers of the Middle West is a major part of the Standard Oil Company's business. For that reason the dark, green tank wagon of the Standard Oil Company (Indiana) is recognized by the farmer as serving an indispensable need in promoting the increase of food products.

Thousands of these tank wagons travel continuously, on schedule, throughout the 11 states of the Middle West, served by this Company.

During the busy season, when the farmer needs power most, this Company delivers gasoline even to the tractors in the field. Rain or shine, these wagons are on duty to help make certain that the nation's food supply shall be planted, harvested, and delivered on time.

To enable the farmer of modest means to utilize automotive machinery in cultivating an increased acreage at a lower cost per acre, the Standard Oil Company (Indiana) strives constantly to keep down the price of gasoline, by increasingly efficient refining methods, and to expand and perfect its comprehensive system of distribution.

LOUISIANA WOMEN FIGHT FOR RIGHTS

State Legislature Convenes Today to Act on Ratification of the Suffrage Amendment

WILL BE THE 36TH STATE
Neither Side Has Been Able to Get Much of a Line on Sentiment of New Lawmakers

(By United Press.)
Baton Rouge, La., May 10.—Rival camps of the suffragists—state and federal—were in battle array today for the convening of the state legislature to act on ratification of the Susan B. Anthony suffrage amendment. If Louisiana ratifies, it will be the 36th and last necessary state to put the amendment into operation.

The incoming legislature, under the administration of Governor John M. Parker, is admittedly hard toathom, and neither side has been able to get much of a line on the sentiment of the new lawmakers.

Those Louisiana women favoring state suffrage as distinguished from federal suffrage will put up a stiff fight, their leader, Miss Kate M. Gordon, said. Miss Gordon declared her association, the Louisiana State Suffrage Association, is opposed to a "political autoocracy," such as she claims, would be set up should the federal government supervise state elections under the Anthony amendment.

Mrs. Lydia Wickliffe Holmes, president of the Louisiana Ratification Committee For Suffrage, said that women of this state will be able to handle the fight without assistance from the outside.

However, Mrs. Holmes states that she and her aids will be in command, although it is expected that speakers of national reputation will volunteer for work during the legislature.

Miss Gordon expects Miss Bantha Clay of Kentucky to be on hand for the fight of the "state-righters."

Says Fight Is Up To State
New York, May 10.—Louisiana suffragists are fighting their own battle. There will be no workers from national suffrage headquarters here who will go into the strife, it was stated here today.

Miss Rose Young, publicity director, said suffrage leaders had heretofore considered their chances for success in Louisiana were far from good, but that recently it was understood sentiment had turned in favor of the national amendment.

ST. PAUL WINS FROM TAIL LIGHTS SUNDAY

Gets Revenge For Defeat Earlier in Season, Leading Locals by Score of 8 to 5.

RALLY IN THE 7TH UNAVAILING

St. Paul got revenge yesterday from the Rushville Tail Lights on their diamonds, when they defeated the local team by the score of 8 to 5. St. Paul managed to hit the ball and make runs in the early part of the game and this lead was never overcome by the Tail Lights, even though Rushville made 4 runs in the seventh inning. Each team had their batting eye, getting 13 hits on each side.

The Tail Lights will play at Andersonville next Sunday. Following is the summary of the game:

The Other Half Here Today

Florence Vidor, the magnetic star who plays the lead in "The Other Half," the Brentwood production written and directed by King W. Vidor, her husband as the Mystic today, doesn't believe that the average motion picture magnate is misguided when the motto "no sentiment in business" is applied.

This motto plays an important part in "The Other Half." During a pause in the shooting of one of the scenes in the production, Florence Vidor called her husband's attention to it.

"I was literally made to feel like a piece of furniture when I went to a big studio where I was being cast for my first lead," said Mrs. Vidor.

"I felt I knew several of the chiefs at that studio fairly well, as they had been very pleasant and courteous to me when I had played 'bits' in several productions. But this time it was different. The director feared my eyes were too far apart. The head cameraman tilted my head up and down critically examining the different effects. Then I was taken to the head Mogul of all, who expressed the regret that my nose was not a bit more on the Greekian order."

Mrs. Lydia Wickliffe Holmes, president of the Louisiana Ratification Committee For Suffrage, said that women of this state will be able to handle the fight without assistance from the outside.

However, Mrs. Holmes states that she and her aids will be in command, although it is expected that speakers of national reputation will volunteer for work during the legislature.

Miss Gordon expects Miss Bantha Clay of Kentucky to be on hand for the fight of the "state-righters."

The Aftermath of Flu

This is No. 1 of a series of advertisements, prepared by a competent physician, showing how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

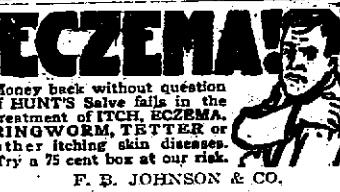

Your doctor will impress upon you that following recovery from the active stage of influenza, there often remains an inflamed, congested condition of the air passages—throat, larynx, bronchial tubes and lungs.

Frequently the cough hangs on—soreness of the chest persists—you take cold easily and there may be obstinate catarrh. This condition is slow to clear up and if neglected may favor the development of pneumonia, or later on, serious disease of the lungs.

Such cases should continue under the care of their physician—should exercise moderately in the open air—eat plenty of wholesome food—avoid overwork and sudden chills.

Nightly applications of Vick's VapoRub may help nature to complete the process of repair. Because Vicks acts locally by stimulation thru the skin to

Several people from here will attend the funeral services which will be held Wednesday afternoon at one-thirty at the Simpson Chapel, in Indianapolis.

A RUSHVILLE INTERVIEW

Mr. Levi Tells His Experience

The following brief account of an interview with a Rushville man three years ago, and its sequel, will be read with keen interest by every citizen.

Harrison Levi, 931 N. Sexton St., says: "I used to have to get up six or seven times each night on account of the too frequent action of my kidneys. Often the secretions were scanty and pained in passage. Nothing ever did me any good until I began taking Doan's Kidney Pills, which I got from Johnson's Drug Store. It didn't take them long to fix me up, the pains left and my kidneys acted regularly."

OVER THREE YEARS LATER, Mr. Levi said: "I am glad to confirm my former statement of Doan's Kidney Pills, for they have given me a permanent cure."

Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a slow complexion—dark rings under your eyes—pimples—a bilious look in your face—dark eyes with no sparkle. Your doctor will tell you ninety per cent of all diseases comes from inactive bowels and liver.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which you should enjoy by taking the few and simple doses of this medicine.

Dr. Edwards' Olive Tablets are easily digested by their olive color. No acid taste.

Railroad Traffic Disrupted and as Result Food Supplies Were Slow Reaching Cities

GERMAN VALUTA STIFFENED.

Incidentally Foreigner Began to Find That Costs Were Approaching His Homeland

(By Carl D. Groat)

Berlin, April 21 (By Mail)—Remarkable price increases, with growing shortages in food supplies, were the immediate after-effects of the Kapp "putsch" and the attendant general strike. While these effects were a couple of weeks in manifesting themselves, they had become fairly pronounced in the early weeks of April.

Larger cities had lived from their refrigerator warehouse supplies of food during the strikes, and they were left with only a narrow margin. Railroad traffic was so disrupted that it was a difficult problem to catch up in lost distribution, and as a result food supplies existent in the country were slow in reaching the cities.

This naturally meant an increase in the cost of supplies, and while it was most noticeable in the matter of food, it was almost equally applicable to clothing, shoes, and other essentials of life.

While the poor felt the pinch first, it was noticeable that the better grade restaurants—living outside the rationing law—also were touched by the situation. Butter was unobtainable. Several kinds of meat previously on the bills of fare were either enormously costly or almost entirely lacking. Cheese brought in from Holland and Denmark almost disappeared.

At about the time of the Kapp "putsch", the government had asked for new food credits in America, and negotiations were still under way for obtaining new supplies at the time this article was written. Assurances, however, were at hand that the government would be able to get more food from America through the means of privately established credits, though official and unofficial sources are carefully checking up on the bills of fare for the coming year with respect to food and raw materials.

Coincident with the rise in prices following the "putsch", there was a remarkable stiffening of the German valuta so that Germany was in a better position to buy previously. Incidentally, the foreigner—much reviled by the German because he had such an advantage from the exchange rate—began to find that costs were approaching those of his homeland.

In connection with the matter of German purchases in foreign countries, it is interesting to note that the German does not realize that America is not in a position to make big loans as readily as heretofore. He does not realize that the masses of money America made before her entry into the war have been spent in improved standards of living.

make good the deficit, and the matter was not made public. Mr. Spradling stated that later Collins made proof to them by bank deposit slips and other evidence that the \$5,401.54 had been replaced.

At that time, a conversation was held between the examiners and Collins, and the latter promised to go straight, as it had made a man out of him.

On cross examination the defense attempted to show that the former clerk was short when Collins took office, but this part of the testimony was not permitted, as Mr. Spradling did not have any figures on the former clerk.

Ed J. Donnell, the other examiner with Spradling, was the next wit-

COMMENCEMENT FRIDAY

The commencement exercises of the Orange school will be held Friday evening in the high school auditorium. The Rev. C. S. Black of Rushville will deliver the address.

Stiff? Sore?

A lame back, a sore muscle or a stiff joint often is considered too lightly by the sufferer. It should be remembered that backache, rheumatic pains, stiffness, soreness, sallow skin and puffiness under the eyes are symptoms of kidney and bladder trouble—and these certainly should not be neglected.

Foley Kidney Pills

help the kidneys eliminate from the system the poisonous waste and acids that cause these aches and pains. They act promptly and effectively to restore weak, overworked or diseased kidneys and bladder to healthy, normal condition.

J. E. Simmons, 400 E. 50th St., Portland, Ore., writes: "I was troubled with backache, rheumatic pains, stiffness, soreness, sallow skin and puffiness under the eyes are symptoms of kidney and bladder trouble—and these certainly should not be neglected."

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Menthonized Arcine and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

When you bring your battery to us for a recharge, we test it. If not in condition for recharge without repairs, we tell you so promptly, avoiding delay and reducing rental charges.

REPUBLICANS MEET TO PICK CHAIRMAN

Temporary Manager of Chicago Convention is Being Decided Upon Today by Committee

PLANS FOR CONVENTION

Vast Preparations Will be Made to Take Care of Delegates That Will Select President

(By United Press)

Chicago, May 10.—Race for the presidency was sidetracked for the moment by republicans today as G. O. P. chiefs gathered here from all parts of the country to deliberate on what was considered to be the first crucial test of strength of its candidates for president.

The republicans were scheduled to select the temporary chairman for the national convention here June 8, as well as complete the stage arrangements such as the allotting of seating space to delegates, how tickets are to be distributed and to select other officers for the convention.

As the committee on arrangements got down to its task today of selecting a temporary chairman who would no be objectionable to a majority of the committee, only one thing appeared to have any certainty about it and that was that women delegates to the convention would get front row seats with their state delegations.

In addition to the meeting of the arrangements committee, there will be a meeting today of the executive committee of the national committee to discuss national organization in preparation for the fall presidential campaign.

Will H. Hays, national chairman.

The Itching and Sting of Blazing, Fiery Eczema

Seems Like the Skin Is on Fire.

There is a harassing discomfort caused by Eczema that becomes a torture. The itching is almost unbearable, and the skin seems on fire with the burning irritation. A cure from local applications of salves and ointments is impossible, because such treatment can only allay the pain temporarily. The disease can only be reached by going deep down to its source.

The source of Eczema is in the blood, the disease being caused by an infection which breaks out through the skin. That is why the most satisfactory treatment for all so-called skin diseases is S. S. S. for this remedy so thoroughly cleanses the blood that no impurities can remain. Get a bottle today, and you will see results from the right treatment. Write for advice. ROBERT MINTYRE, JR. DIES

Seven-Year-Old Son of Local Man Expires at Fort Wayne

Robert McIntyre, Jr., son of Robert McIntyre of this city, expired yesterday afternoon at 3:45 at Ft. Wayne, following an attack of bronchial pneumonia. The child would have been eight years old tomorrow. Mr. McIntyre was called to Ft. Wayne yesterday morning and reached the child's bedside before he died. The remains arrived here this morning and were taken to the McIntyre home, 128 East Eighth street, where services will be conducted Tuesday afternoon at two o'clock with the Rev. C. S. Black in charge, and burial will be made in East Hill cemetery. The father and a few near relatives survive.

ago and I have but a faint recollection of the contents. I recall it was written in response to one addressed to me asking my opinion about the election of Mr. Bossert as district chairman.

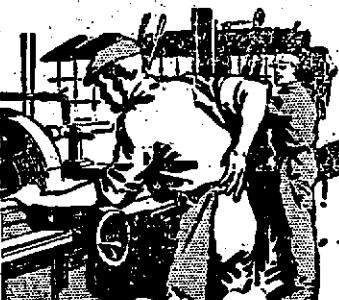

"I have taken an interest in Sixth District politics for a quarter of a century and have always had something to do with the organization. I think I am well within the truth when I say that I had much to do with the election of Mr. Bossert in 1916 and 1918 and that, being interested in the organization, I feel that I still have the right to express my opinion as to who should compose it."

"I had advised with a number of my friends throughout the district and while I had no personal feeling in the matter at all it was the opinion that under all conditions that existed at that time, Mr. Bridges would be a more satisfactory chairman than Mr. Bossert."

Borah is backed by the Johnson group.

Fifteen members of the arrangements committee which selects the temporary chairman are:

"Gosh! How my back aches!"

After Grip, "fin" or colds, the kidneys and bladder are often affected—called nephritis, or inflammation of kidneys.

This is the red flag of danger—better be wise and check the further inroads of kidney disease by obtaining that wonderful discovery of Dr. Pierce's, known as Anuric (anti-uric-acid), because it expels the uric acid poison from the body and removes those pains, such as backache, rheumatism in muscles and joints.

Naturally when the kidneys are deranged the blood is filled with poisonous waste matter, which settles in the feet, ankles and wrists; or under the eyes in bug-like formations.

Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package of Anuric Tablets.

Chicago, Ill.—"I was very sick. Had backache and spineache. I had used a number of remedies. Finally, I began taking Dr. Pierce's Anuric Tablets, and they helped me very much. I have also used Dr. Pierce's Pellets, and they are wonderfully active in their work. I am feeling well and robust and have the strength of ten." —E. A. NOVOTNY, 1160 W. 19th St.

Close to two thousand delegates including alternates, are scheduled to attend the convention. Tickets for spectators will be distributed through national committeemen. A choice number of seats will be reserved for sale, the proceeds of which will go to help pay the convention expenses.

Coliseum Hall, where the convention will be held, is being arranged to handle a crowd of close to 12,000.

Hotels and local reception committees are preparing to handle a record crowd of visitors. Close to 200,000 visitors, including delegates, their families and sightseers, are expected to be here for the "greatest convention" in Republican history.
